CTA Meeting 09/03/2020: notes.
1. Add user calendar view: user can click on a button (date) to make a reservation, can see upcoming/ past reservations, can add notes to calendar (user-specific).
2. User can see popup of current/upcoming reservations.
3. One building is associated to one food court. Each food court can have multiple restaurants and respectively different food items.
4. Admin can also add/edit/remove food items.
